

ASK. ACT. STAY COMPLIANT.

# REGINA: Your Regulatory Insurance Assistant

REGINA (short for REGulatory INSurance Assistant) is an AI-powered conversational agent. She helps compliance and operations teams interact directly with their State regulatory data – simply by asking questions in plain language. No more digging through reports or spreadsheets. Just ask REGINA. She will let you know the State rules.

## What Regina Does Today

**Instant answers for** Query State licensing, appointments, renewals, and CE compliance regulatory rules in seconds

**Understands context** by interpreting natural language requests, from “show me licenses processes” to “how do I get affiliations for my DRLPs”

**Stores chat sessions & chat history** for registered users

**Multi-state** comparison

## Ask Questions Like...

- How many CE credits does a producer need in CA?
